A criticism of the football number- to the statement of the French finanhat a moving picture test shows that sumbers are no help in identifying piapers. It is difficult to realize that they help in any other way, judging by what we have seen.

All kinds of wrinkles are being em-ployed by the wrestlers who have bouts with Joe Stetcher to avoid the ireaded scissors hold. Bill Hokuf, the Bohemian, kept the Nebraskan from applying the pressure for five or six minutes in Chicago the other night by holding on to one of Joe's feet, but it was all over in 8 Sminutes 21 seconds for the first fall, and the sec-ind one came in less than half that lime. Next.

Northwestern University has a pitcher who weighs 255 pounds. He has add distinguished prototypes. Congressman Samuel Winslow for initance, was a winning pitcher in his lay and played center field, too, at limes in the year he was captain of a leam that made a clean sweep of all ts college games, would not say what "Sam" weighed in those days, but he was a "whale" and he knew how to run a ball team.

SATURDAY'S MARKET. of the Light Trading Was in Bulk Speculative Favorites.

Pete Hegelman, the famous oldtime pedestrian, is training Villar Kyronen for the B. A. A. Marathon. Pete ought to know what a distance runner needs in preparation for a 25-mile hike.

Herbert Vollmer, the sensational swimmer of the east, is built for speed. He stands 6 feet 2 inches tall and weighs 165 pounds, the rangy type that is successful in so many forms of sport.

Amherst and Williams seem to have better nines this season than they have had for the past few seasons. By the lime they get ready to meet each other they should be in shape for some interesting baseball games.

A criticism of the football number-

conditions and higher prices for raw and finished material are in them-selves no check to superabundant achave tivity. Contrary to last week's statement, today's returns of the clearing house institutions showed a marked contraction, while reserves increased by about \$3,700,000, once more bringing the excess reserve to a figure well over \$100,-

000,000.

Bonds were easier today, the trend being most marked in the Anglo-French fives, in which heavy sales were made at 95. Total sales of bonds, par value, aggregated \$2,615,000. United States bonds were unchanged on call during the week.
